THE NEW TRAVELLING TRIPLE MIRROR.

This new and very convenient form of Mirror is sure to become a general favourite. As the figure is reflected in it FIVE times, a Lady is by its aid enabled to see herself perfectly, and without changing her position at all. It is made in a variety of neat style, and forms a pretty ornament to a room. When the Mirror is folded it is less than an inch in thickness. The small space that it occupies, and the safety with which it can be packed, will especially commend it for use in Camp.

INNOCENT AND POPULAR AMUSEMENT A NECESSITY.

"LET ME WRITE THE SONGS OF A NATION AND YOU MAY MAKE ITS LAWS,"
SAID THE PHILOSOPER.

And to myself I have said, let me direct the recreations of a people and I will relieve the law, by so answering Nature's warning cry for "Rest! rest! for the over-strained muscles and overtasked brains as, in a large measure, to prevent a resort on the part of toiling humanity to vicious dissipations, in search of indispensable relaxation.

Men ought not to live through work alone. They are but children of a larger growth, with the child's inborn and healthy playfulness and craving for amusement, directed by the sobering years into calmer channels of recreation. It has ever been my aim to faithfully minister, in this regard to all the children of men, of whatever age or calling; to bring rational, moral and instructive entertainment, combined with the attractions of wonder and wholesouled stimulus of innocent mirth, within the reach of the masses and the possibilities of the slenderest purse, and to make them subservient to enlightenment, and auxiliaries of our Public Schools.

Sincerely believing this to be the case, I extend to Clergymen and Teachers, generally, a cordial invitation to honour us with their presence, and, as special conservators of public morality and the chosen guardians of the youth of our land, to faithfully perform the duty of intelligent and impartial criticism. And they may take my word for it, that all who wisely accept the propitious occasion, by granting themselves, their little ones, and employés a needed holiday, and the chance to visit my Great World Circus, will return to their homes with wiser heads and lighter hearts; re-invigorated, and qualified, and encouraged to again contend in the stern battle of life.

COMMERCIAL INTELLIGENCE.

SATURDAY EVENING, 5TH APRIL 1879.

THE improved tone apparent in business when last Mail left has been well maintained since, and the past has been the most active week of the season. Imports continue in fairly good demand and full average clearances have been effected, whilst Cotton has been in strong request throughout and at times quite excited. In Liverpool there has been a rise of about ½d. per lb. on the week, producing fully an eighth last advance here, and a large business has been done, both on speculation and for export, although the transactions would have been much more extensive had supplies been larger. A slight improvement is becoming apparent in this respect, but unless the season is to prove very disappointing we must see a very rapid increase from now onwards, as the clearances for see since 1st January are upwards of 150,000 bales behind the same time last year. Of Seeds, too, larger arrivals may shortly be expected, so that there is every probability of the next two months affording a marked contrast to the dulness which characterised the first half of the season.

MONEY.—The last published return of the Bank of Bombay for the week ending on 29th ultimo was of a much more favourable character than was generally expected, the Cash Balance showing an increase of nearly 12 lacs, and no change has been made in the official rates of discount. The statement to be issued to-day, however, will probably exhibit a considerable increase in the demand for Money, and as the Directors of the Bank of Bengal advanced their rates one per cent. all round on 27th ultimo, it is not unlikely that the current week may see a corresponding movement here. Had our export trade been at all active we should have had Money dearer ere now, as the available supplies of capital have been comparatively small, but every day now will increase trade requirements, and it need be no matter for surprise if we see considerable pressure towards the end of this month.

EXCHANGE.—The Market for Sterling has undergone some rapid and almost unaccountable fluctuations this week, and rates close on a decline of about 1½ per cent. from our last Mail's quotations. Business for the Mail opened on Tuesday morning on the basis of 1s. 7⅞d. for demand Bank Bills, and 1s. 7¾d. for 3 months' Credit Bills, but a very irregular feeling was apparent, and in the course of the afternoon a decline of ⅛d. took place. On Wednesday quite a collapse was experienced and a drop of ⅛d. was established, which was followed by a further fall of ⅛d. on Thursday morning in consequence of the 25 lacs of Council drafts having been allotted in London on the previous day at from 1s. 7d. to 1-16d. The market then touched the lowest point of the week at 1s. 7 1-16d. for demand Bank Bills, but this level was only maintained for a very short time, a recovery of 1-16 to ⅛d. taking place later in the day. Friday saw the firmer tendency confirmed by a further partial rise of 1-16d., and on Saturday rates were again the turn in favour of buyers, the markets closing with a decidedly steadier appearance at the following quotations:—Bank Bills on demand 1s 7 3-16 to ⅛d.; 6 months 1s. 7 9-16 to ¾d.; Credits 3 months 1s. 7 9-16; 6 months 1s. 7¾d.; Documents 3 months 1s. 7⅛d.; 6 months 1s. 7 13-16d. per rupee. A considerable business has been done during the week, both for this Mail and forward delivery, more perhaps for the latter, as the former has been mostly given a preference to late delivery while it has also suited sellers better, as they had general'y provided for current requirements at the low rates which prevailed a fortnight ago.

The fact of the banks making no diff-rence in their buying rates for future delivery would appear to indicate a belief in rates ruling lower, or at all events not higher, than the present level, during the remainder of the season. There never was a time, however, when opinions as to the probable course of the Market were of less value than now, as so much depends on what action Government may take and so little on the ordinary market influences.

The sudden fall in the early part of the week had, we believe, no other origin than an idea that from us having heard nothing further by wire respecting the proposed sterling loan for 10 millions the project had been abandoned—and it certainly is peculiar that we have received nothing more definite on the subject—but to our thinking it seems almost a certainty that Government have made up their minds to do something, although what, it would be difficult to say. Some interest has been created this week by a Reuter's telegram from Berlin, dated 2nd instant, reporting that the press there published news of a probable increase in the Silver coinage which would absorb £5,000,000, but later private advices seem to say that the report is incorrect, or at all events premature. The importance of such a step would necessarily be very great as the whole of the surplus Silver which Germany now has to dispose of is only estimated at 15 millions, and if a third of this were out of the way the position would be very different; indeed it might prove that in adopting the measure we were preventing a collapse in exchange for another year, by borrowing 10 millions at home, the Government might really be taking the wisest course possible under the circumstances.

After the allotment of the Council drafts at 1s. 7d. Bar Silver in London dropped from 49¾d. to 49¼d. per oz., but has since recovered to 49¾d.

The price of Gold here advanced during the early part of the week from Rs. 19-7 to Rs. 19-12 at which, rate, equivalent to an exchange of 1s. 7¾d. per rupee business was done for export, but the quotation has since receded to Rs. 19-11 per tola for 100 touch.

On Calcutta demand drafts are quoted at 1-16 per cent. premium, 60 days' sight at ⅛ per cent. discount.

On China 60 days' sight mercantile bills are quoted at Rs. 215 per 100 dollars. From Hongkong the latest quotation by wire for 6 months' sight Bank Bills on London is 3s. 7¾d. per dollar, and from Shanghai 4s. 11¾d. per tael.

GOVERNMENT SECURITIES.—The fall in Exchange and the consequent decline in value of Enfaced Rupee Paper at home has necessarily exercised an adverse effect on the market, and until within the past two days a very dull feeling was observable, a recoding to Rs. 92 for Fours and Rs. 97 for Fours-and-a-half. A slightly steadier feeling is again manifested, however, and closing quotations are:—Fours, Rs. 92¼; Fours-and-a-half, Rs. 97½ to ¾.

SHARES.—The Market has been very quiet throughout, and with the exception of some of the Banks and Press shares, which generally improve during the Cotton season, values show a very general decline. *Banks.*—Bank of Bombay was firm at a recovery during the week of Rs. 5, Agras are Rs. 2 higher, National Rs. 3 lower. *Land* Companies are generally depressed, Colabas having receded to Rs. 795, Freres to Rs. 110 and Mazagons to Rs. 400. Port Cunnings are Rs. 10 higher. In *Press* Companies East India and Sind Punjaub have advanced Rs. 35, Advocate Company of Kurrachee and Bellevy Rs. 5, and Mofussil Company Rs. 2½ per share. *Spinning and Weaving Mill* shares are lower all round. The demand for both yarns and goods is a shade better, but this is more than counterbalanced by the considerable rise which has taken place in the raw staple, and most of the companies are now working either to a loss or at best to a very small profit. Our list of quotations exhibits a decline of Rs. 75 in National, Rs. 40 in Khandesh and Morarjee Goculdas, Rs. 30 in Jewraz Balloo and Madras Spinning, Rs. 25 in Alliance and Great Eastern, Rs. 20 in Bombay United, Dhurrumsey, Oriental and Soondersee, and Rs. 15 per share in Hindustan, Madras United and Manockjee Petit. Amongst *Miscellaneous* Companies we notice a recovery of Rs. 15 in Bombay-Burmah Trading Co. Treacher and Co., Limited, are firm at Rs. 660 per share.

PIECE GOODS.—Although scarcely so active as last week a very steady business has been done since last Mail left, the clearances from the bazaar being estimated at about 2,400 packages, whilst from first hands fair sales have also been effected, and a large indent business has been done. Prices are firm and tend in favour of buyers, although they are only quotably higher in one or two descriptions, but a continuence of the present moderate scale of supplies, and firmness in Manchester must tend to such an issue.

GREY GOODS.—Shirtings continue in fairly Good request a-l round at fully former rates, but 8¼ lb. 39 inch is the description which meets most demand, and as supplies are small a slight advance in prices is obtainable. In Madapollams a moderate business is passing at previous quotations. Printers are firm but not active. For Jaconets and Mulls the demand shows some improvement and rates seem inclined to favour sellers. Dhoties are fairly active but unchanged in value. Bleached Goods are more actively dealt in all round, but Shirtings, Jaconets, Mulls, and Tanjibs are the descriptions most in favour, although seller have not been able to obtain any advance in price. In Dyed and Printed and Turkey Red Goods there is a slightly better feeling, but supplies as a general rule are still a long way in excess of the demand.

TWIST.—The Market continues very firm, and a moderate business is doing, although not to the extent noticeable last week, nor has there been any further advance in prices. If English Yarns stocks are not heavy, and the position would favour a further rise should the firmness in Manchester continue. Local Yarns are firmer but stocks are large.

METALS.—*Copper*.—A large business has been done and prices are well supported but no higher. *Yellow Metal* is inactive at previous quotations. In *Iron* the extent of business passing is not large. Of Swedish large supplies are held and prices are Re. 1 per candy lower, but British Bars are in comparatively light supply and prices are As. 8 to Re. 1 per candy higher.

COALS.—A fair demand has been experienced throughout the week and a moderate business has been done to arrive at an advance of As. 8 to As. 12 per ton, the quantity offering being very limited. The transactions have been chiefly in Davison's Welsh Hartley at Rs. 21½ by Cape and Rs. 21½ by Canal, and Laird's Welsh Hartley by steamer at Rs. 24½ to Rs. 21 per ton alongside.

COTTON.—The Market opened with a very quiet feeling and to begin with a decline of Re. 3 to Re. 4 per candy was established. On Wednesday morning, however, the news of a very strong market in Liverpool, on the previous day, caused a rapid reaction, and as the Liverpool advices have continued strong we have since had excited Markets daily with rapid fluctuations in prices, which at the close show a general advance of Re. 1 to Re. 10 per candy. With limited supplies both here and up-country sellers have restricted business to a great extent, but the purchases for export in Bombay alone, nevertheless, total about 30,000 bales for the week, made up chiefly of Ginned Broach and Omrawuttee.

The *Receipts* to date show the following comparisons:—

	1879.	1878.	1877
For the Week	38,500	31,720	67,716
Since 1st Sept.	361,003	547,034	690,420

The *Clearances* for sea since last Mail left have been 25,374 bales, making a total of 163,249 bales since 1st January, against 314,598 bales for the corresponding period last year, thus showing a deficiency so far this season of 151,349 bales. In all probability, however, this figure will be steadily diminished now as the receipts have at last begun to gain on last year and may be expected to go up to the extent. Last year the bulk of our supplies were obtained from the Oomrawuttee districts, and we accordingly had our largest receipts at the beginning of March, but this year Oomrawuttee is smaller, whilst Broach and Dhollera are larger crops, and as the latter is only just beginning to arrive we have yet our largest figures to come. That these will be much larger than the believers in extremely small crops estimate, is rendered, we think, highly probable by the fact that Oomrawuttee shows no symptoms of falling off yet, the second picking proving much better than was anticipated, and as Compta is a fair yield, we consider the probability of the sailings up to 30th June reaching 600,000 bales, or over, decidedly on the increase. The rapid rise in prices will also have the effect of pushing forward all the available supplies as rapidly as possible and probably much less Cotton will be stored over the monsoon than was the case last season.

The following are to-day's quotations for full pressed Cotton with the equivalent in Sterling Cost and Freight to Liverpool via Canal, without Commission:—

SEEDS.—*Linseed* continues in steady demand at fully previous prices, to-day's quotations being Rs. 6-10 to Rs. 6-12 per cwt. Supplies are still small but they are increasing, and by the end of the month should be liberal as crop accounts are more favourable than at first reported. *Rapseed* is in less active request, and as arrivals at the same time are increasing prices have declined Rs 7-3 per cwt. for Yellow Gujerat. *Gingelly* continues to find ready buyers at Rs. 42½ to Rs. 45 per cwt. according to quality.

LATEST INTELLIGENCE

THE AFGHAN WAR.

[PUBLIC PRESS MESSAGE.]

THE LATE DISASTER AT THE KABUL RIVER.

LAHORE, APRIL 5.

The squadron of the 10th Hussars following the squadron of the 11th Bengal Lancers across the Kabul river, yielding to the strength of the current, left the ford, which is sixty feet wide and the average depth two and a half feet, and went over rapidly into deep water. It is assumed that just at that moment a wave or spate came down, as the column of the 10th, 140 yards long, was suddenly carried into deep water. There is no other way of accounting for how a long column could all instantaneously have been washed off the ford. Immediately after the accident the river was reforded by some of the men without accident.

THE ATTACK ON GENERAL GOUGH'S FORCE.

General Gough on the 2nd instant sent out two small reconnoitring parties from Futtehabad of thirty Cavalry each, but both were fired upon and fell back. Later on the pickets reported that masses of men were assembling close to the camp. General Gough then got the force under arms, and leaving a guard at the camp advanced, and found the Khurgianis holding a strong position two miles from camp. Our force consisted of four guns Horse Artillery, three troops of the 10th Hussars, three troops of the Guides Cavalry, and 700 of Infantry. The Artillery opened fire, but retired as the enemy advanced. Meantime the Infantry made a continuous advance. The enemy hesitating the Cavalry charged, the Guides to the front, the Hussars to the right front, which flank the enemy were endeavouring to turn. The charges completely defeated the enemy, who fled, but were pursued some four or five miles. The Infantry occupied an entrenched ridge, and with the Artillery fired on the retreating enemy. Our loss was,—killed: two British officers, one native officer, one private of the 17th, two sowars of the Guides, and six horses. Wounded: three native officers of the Guides, one gunner, three men of 17th, seven men of the Hussars, 26 sowars of the Guides, 28 horses of the Guides, one horse of the Artillery, ten horses of the Hussars, and nine men are dangerously wounded. The enemy's loss is estimated at 400 killed and 100 wounded. One standard and a large quantity of arms were captured.

[REUTER'S TELEGRAMS.]

(By Red Sea Cable.)

PARLIAMENTARY.

LONDON, APRIL 4.

In the House of Commons the Under Secretary of State for Foreign Affairs said, in reply to a question, that news had been received that French troops had occupied the English island of Matakong on the west coast of Africa. The British Government had made representations to the French Government on the subject.

THE AFGHAN WAR.

The Chancellor of the Exchequer, in reply to a question, repeated that the British forces had attained the object of the Afghan expedition. Negotiations still continue with Yakub Khan, and according to authentic information received todo further communications of a very definite character are under consideration. It has been distinctly arranged with the Viceroy that no advance should be made on Kabul about unless being given.

INDIAN FACTORIES.

In the House of Lords the Secretary of State for India made a statement concerning Indian factories. He said that the Indian Government had prepared a bill enacting that the Mills should only be opened from 6 a.m. to 6 p.m., for 6 days weekly, female operatives working 10 hours and juvenile operatives 9 hours. The Indian Government is invested with full powers of exemption and control.

THE DEPRECIATION IN SILVER.

The Chancellor of the Exchequer, in reply to a deputation from the Liverpool Chamber of Commerce on the subject of the present depreciation of silver, said it was necessary to consider with great care any proposed changes affecting, the currency laws, which it was impossible to adopt as a mere experiment. The question, he said, is still under the consideration of the British Government, both in reference to its effects in India and England and in other countries also.

THE ZULU WAR.

MESSAGE FROM KING CETEWAYO.

A despatch from our Border Agent, dated 1st March, has been published in the *Gazette* announcing that messengers have arrived from Cetewayo, who declared that the King was complying with the demands of Sir Bartle Frere when hostilities were commenced. The King never intended to make any attack. The fighting at Isandula was in consequence of the British attack upon the Zulu outposts. The King asks for suspension of hostilities and resumption of negotiations.

THE INDIAN IMPORT DUTIES.

LONDON, APRIL 5.

In the House of Commons last night Mr. W. E. Briggs (M. P. for Blackburn) introduced a resolution urging the abolition of the Indian Import Duties, and declaring that an increase of taxation being proposed was an unsatisfactory reason for a postponement of their remission. After a long debate the House agreed to the first part of the resolution without a division, negatived the latter part by 166 against 84 votes, and adopted the Ministerial amendment accepting the recent remission as a step towards the total abolition of the Duties.

Consols rose ¼ yesterday, closing at 97⅞.

STEAMER REPORTS.

GALLE, APRIL 5, 7-57 A.M.

Mail steamer Gwalior, from Bombay, arrived.

MADRAS, APRIL 5, 10-50 A.M.

Manilla Mail leaves Hongkong, Wednesday 9.h, at 2-50.

THE insignificant island of Matacong mentioned in Reuter's telegram is one of the group marked Iles de Los on the map, situated about eight miles north of Free Town. The French have settlements at the river Pongo, a few miles north of the island as well as on the Malecory, a little to the south.. Whatever the question in dispute may be it can hardly be of sufficient importance to merit being telegraphed about all over the globe.

H. E. THE GOVERNOR will, it is expected, leave Bombay on the 21st inst. for a tour in Canara.

THE flagship Euryalus will not remain long in Bombay harbour. Admiral Corbett proposes to leave for Trincomalee about the end of this month, and to go thence to Mauritius till after the monsoon. The cruise of the flagship in Persian Gulf waters was very cool and pleasant, and soon restored the health of the crew.

THE Officers of the G. I. P. R., the Bombay, and the B. B. and C. I. R. Volunteer Corps, with a few guests, dined together in a large tent on the Wellington Reclamation, Apollo Bandar, on Saturday evening. The guests included H. E. Rear-Admiral Corbett, and several naval and military officers, and the members of the local Press. Sir Richard Temple, Honorary Colonel of the Bombay Volunteers, presided. Nearly the whole of the officers of the Bombay Volunteers and the resident officers of the two Railway Corps, besides many belonging to the latter from different large stations on the lines, were present. Altogether about seventy gentlemen sat down to an excellent dinner, served under the superintendence of Messrs. Green and Jarvis, of the Apollo Bandar; and afterwards there were some pleasant speeches. The only toasts, besides the usual loyal ones and "The Army and Navy" which was responded to by Admiral Corbett and Colonel Macdonald, were "H. E. the Governor," proposed by Colonel Sexton, and responded to by His Exellency; and "The Bombay Press," proposed by the Governor, and responded to by Mr. Maclean, of the *Bombay Gazette*. A very enjoyable evening was passed, no inconsiderable portion of which enjoyment was due to Major Bayley, Lieut Rienzi Walton, Captain Bulkeley, and the members of the Committee for the very comfortable and tasteful arrangements they had made. The tent was lighted by gas, which, if it cannot be claimed for it that it is equal to the electric light in respect of emitting "absolutely no effluvia," is certainly very much superior to kerosine or other oil lamps; and these were disposed on the tables and in other conspicuous positions deliciously cool looking lumps of ice from the new manufactory which Messrs. Forbes and Co. opened recently, and which is evidently working most successfully when such solid and durable blocks can be turned out. A detailed report of the after-dinner proceedings will appear to-morrow.

OUR Poona correspondent, writing under date the 5th instant, says:—"A criminal information has been laid here against Mr. George Cowper, the assistant station master at Egatpura, before Dr. A. G. Frazer, the Railway Magistrate, which runs as follows:—'I, James Saxon, Provost Sergeant, H. M.'s 2-11th Regiment, at present stationed at Ghorepuri, charge Mr. George Cowper, assistant station maste, Egutpura, for having purchased, on or about the 13th day of September, 1878 from a Private (Connell, of H. M.'s 2-11th Regiment, one rifle, the property of Government, and thereby the abovenamed accused has committed an offence punishable under the Mutiny Act of 1878, section 85.' There are six witnesses named for the prosecution, and Dr. Frazer has fixed the hearing of the case for Tuesday the 8th instant."

THE *Pioneer*:—From a Kabuli who has just arrived at Jalalabad, a correspondent learns that the Afghan army which was stated to have been extended between Kabul and Butakkak, is now assembled at the latter place. It is said to consist of fourteen regiments of infantry, ten thousand Afghan cavalry, with five thousand Kohistani levies, and ten guns. It is reported that on the 28th it was expected to have assembled at Lughman, where Asmatoolah Khan is also reported to have gathered a large following of his tribe. Although Sirdar Yakub Khan has not joined the force as yet, which is reported ready for service, some of his Court have gone there. The troops above mentioned have been withdrawn from the Seah Sung cantonments. Large reinforcements are stated to have left Herat and Turkestan for Kandahar, and troops also from Candahar have been moved to Kohat road. The numbers given above are probably exaggerated, but the movements are likely enough to have taken place as reported.

THE *Madras Times*:—Below we give the credit side of the balance sheet of the Mayo Memorial Hall, Allahabad, from which it will be seen that Mr. G. W. Allen, the honorary secretary, has been "bled" pretty severely in balancing the accounts. What surprises us a good deal in this case is the fact that the Governments of India—Imperial and Local—have contributed nearly a lakh of rupees to this object. Surely that is a strange use to put the revenues of the people of India to. The figures we have referred to are as follows:—

To Donations and Contributions from the Public Rs.	68,040 1 0
To ditto ditto ditto by grant from the Municipality	30,000 0 0
To Grant from Imperial & Local Governments..	80,000 0 0
To Balance of Interest account in favour of the Fund	832 1 4
To Deficiency made good by the Honorary Secretary	6,340 6 11
Total Rupees..	1,85,712 9 3

RUMOURS continue to reach India from China of an alleged English expedition to Thibet. They appear to have been brought to notice by the Consul at Chungchingfoo and by a French missionary at the same place, through the Consul at Hankow. The Government of India has no knowledge of any English missions to Thibet.

ON the 5th January last the Austrian military mission sent to Teheran by the Emperor of Austria, in accordance with a request made by the Shah when in Vienna last summer, reached the Persian capital. The mission consists of Colonel de Schonowosky, a major, four captains, five lieutenants, a bandmaster, and a military secretary. They are under a contract to remain in the Persian service for three years, during which period they give up their Austrian pay and promotion without, however, losing their seniority.

THE result of the Inter-University boat race this year has justified anticipations, as we find that before the last Mail left the Cambridge crew were the favourites and had considerable odds laid in their favour, the quotation being "65 to 40 on Cambridge (laid)." The day before the departure of the last Mail, the respective crews stood as follows:—Cambridge:—Names and weights of the eight:—J. H. T. Wharten, Magdalen (bow), 11st 6lb; A. C. Wells, Magdalen, 11st 12½ lb; H. W. Disney, Hertford, 12st 6lb; H. B. Southwell, Pembroke, 12st 8½lb.; T. Cosby-Burrowes, Trinity, 12st. 12lb.; G. D. Rowe, University, 11st 13½lb.; W. H. Hobart, Exeter, 12st; H. M. Robinson, New (stroke), 12st. 6lb.; F. M Beaumont, New (cox), 7st 8½lb.; Oxford:—E. M. Prest, Jesus (bow), 11st; 2, H. Sandford, L.M.B.C., 11st. 10½lb.; 3, A. H. S. Bird, First Trinity, 11st. 13lb.; 4, C. Guirdon, Jesus, 13st. 5lb.; 5, T. E. Hockin, Jesus, 12st 3½lb.; 6, C. Fairbairn, Jesus, 12st. 7½lb.; 7, T. Routledge, Emmanuel, 12st. 10.b.; R. D. Davis, First Trinity (stroke), 12st 8½lb.; G. L. Davis, Clare (cox), 7st 8lb. From this it will be seen that the aggregate weights were very much alike. Each University had some four reserve men in training to be ready to relieve any one of those named whom it might be considered advisable to remove.

As many mercantile houses, (says a contemporary) are in the habit of buying their remittances on mail day, it is well they should know that by the rules issued under the new Stamp Act, it is required that the body of the bill should be filled up before the stamp is affixed. Of course, such an absurd arrangement cannot hold for an instant, but until this rule is relaxed to meet commercial requirements, there is likely to be great confusion. The same ridiculous rule is also applicable to bills of lading.

LETTERS from the Kurram camp, a week old, contradict the report of serious mortality amongst the European artillery. Throughout the campaign the health of the European troops belonging to the Kurram column has been exceedingly good, and since the formation of the column in October last there has not been a single death in either of the European batteries of artillery.

THE *Indian Daily News*:—We regret to learn that Admiral Bythesea has met with a serious accident at Jullunder, where he was staying for a few days *en route* to Simla from Kurrachee. The Admiral was driving with Mrs. Bythesea in a dog cart, when the horse became restive, and finally bolted. Mrs. Bythesea managed to jump off from behind, and escaped with a sprained wrist; the Admiral, in endeavouring to get out from the front part of the cart, was thrown with great violence to the ground, and received some severe injuries about the head; he remained for two or three hours insensible, and is much shaken, but it is hoped that no permanent injury has been sustained.

ACCORDING to the Rev. Mr. Otto Witt—a Swedish missionary lately returned to Europe from Natal, where he had witnessed some of the most severe fighting—the Zulus are by far, both physically and intellectually, the most superior of the South African races. "They do very little work, but are fond of talking. If anything even of small importance happened, they talked about it over and over again, and, as such things occurred every day, there was no end of talk. They thus acquired astonishing skill in discussion, and he knew many a lawyer who would envy them their powers in this respect. Cattle was their pet property. If a Zulu had many cattle he could buy many women, if he had many women he was likely to get many daughters, and if he had many daughters he could sell them for a quantity of cattle, and thus acquire more women. For each woman twelve head of cattle were usually paid, and if no children were born within a certain time the husband was entitled to return the woman to her father and claim back his cattle. If the cattle had been increasing in the meantime, of course the young belonged to the former owner. The women did nearly all the work; but if a woman touched a cow for the purpose of milking it she was at once killed. Snuff-taking was a matter of high importance with the Zulus, and if you offered them the whole world they would not take their snuff standing. A hole made in the ear was the Zulu's pocket; there he carried everything not of a heavy nature, especially his snuff box. Almost every Zulu had a village of his own, and as every woman had a hut, the number of women could be ascertained by the number of huts in the village." We have seen elsewhere that in war time the Zulu ladies undertake the commissariat and subsequent duties of the national army, so that their intrinsic value during the piping times of peace is not more—mark—than their importance in the operations of war. Truly our troops now about to invade Zululand have no mean task to perform when they attempt the defeat of an army who will be inspired by the knowledge that the eyes of the female population of their country is upon them.

Except in Chandpur, in the Tippera district, no rain was reported in any part of Bengal during the week ended the 29th of March, and it is now everywhere wanted for the spring crops and to enable the rayats to prepare their lands. The mango crop promises in most districts to be a very large one. Prices of food grains generally remain stationary.

THE *Englishman* says the Municipality of Dhaka has urged on the Bengal Government the desirability of making the railway from Dhaka to Narsingung at once, as there is a very large traffic between the two towns, and the line would be sure to pay. The distance is only ten miles, and it will be part of the proposed Dhaka and Maimansing railway.

THE *Madras Mail*:—The Government of Madras have sanctioned a grant of one thousand rupees in aid of the orphanage to be erected at Kotagiri by the Rev. A. Buhrer, of the Basel Mission, subject to the Commissioner of the Nilgris being satisfied of the sufficiency of the arrangements. The orphanage is for girls only. The majority of the children at present on the hands of the Mission are famine orphans, obtained from the Wynaad.

THE *Statesman*:—Lord Lytton concurs generally in the opinion of the Lieutenant-Governor of Bengal regarding the Calcutta Municipality, and His Excellency endorses what Sir Ashley Eden says about the need for thorough financial reform, for estimates and accounts which shall not be misleading, and for equilibrium between income and expenditure; and the need for the prosecution of sanitary reforms, among which the completion of the water-supply, the extension of the drainage, the filling up of noxious tanks, and the regulation of hut-settlement (*bustees*) are the most important. The resolution also notices the inaccuracies which were discovered in the accounts, and concludes with a recommendation of the Commissioners to follow the Lieutenant-Governor's advice and "guard against the tendency to diffuse discussion." Some of the Commissioners make it the business of their existence to deliver set orations upon every conceivable subject, irrespective of the importance of the matter under discussion. Perhaps the introduction of a set of rules limiting each speaker to a certain space of time would serve to check this torrent of unnecessary and, in many instances, unmeaning eloquence. The advice is good, and needful no doubt; perhaps it might be profitably extended to other talkative bodies—the British Houses of Commons, for example.

The Tramway Committee of the Calcutta Municipality have decided to recommend the acceptance of Messrs. Parrish and Scottar's tender for the construction of street tramways there. Kittredge and Co., of the Bombay Tramway Company, withdrew his tender. The rental he offered was considerably lower than that submitted by Messrs. Parrish & Co., there being a difference of Rs. 1,000 per mile, double and single tracks, between the two tenders. Messrs. Parrish & Co. propose to lay down about sixteen miles of line, which will yield a total annual rental to the Municipality of Rs. 43,750 per annum. In addition to this, the saving of Rs. 30,000 per annum in the Calcutta Budget, as the Tramway Company undertake to keep those streets in which their rails are laid in repair. The Municipality may purchase the lines after twenty-one years, or take over the entire undertaking on guaranteeing 7 per cent. to the shareholders. After the expiration of five years the rent is to be gradually increased till it reaches the maximum of Rs. 4,000 per mile for double, and Rs. 3,000 for single lines. Messrs. Parrish & Co. have constructed and worked large tram lines in England and Europe with success, and (the *Statesman* thinks) their tender is probably as favourable a one as the Municipality are likely to obtain.

AMERICAN Beauty & Co. in Bombay pay the local corporation Rs. 3,000, and Rs. 2,000 for double and single lines; the rent is not subject to enhancement, and it is generally understood that the Company is paying its promoters handsomely.

ENGLISH ladies are just beginning to adopt the fashion that has been in vogue in Paris for some time, of wearing short skirts for ball-room toilettes. Now that quadrilles, and in fact all square dances, are voted "slow" and tabooed, nothing is thought of but the valse, for which the long-trained dresses are found extremely inconvenient, both to the wearer and her partners, especially the latter, who occasionally find themselves more inextricably *attached* to a lady than is at all consistent with the *trois temps*. To avoid these difficulties many ladies have a cord from the end of the train, and a loop through which the gentleman's arm goes, and by which he holds up this troublesome appendage; but this at best is a clumsy expedient, and not elegant, to say the least, while a short costume, just showing a pretty foot beneath, is both becoming and infinitely more convenient. Can the hesitation of our fair friends about adopting this fashion be caused by the non-existence of the pretty foot?

SPORTING.

WE take the following from the *Asian*:—

UMBALLA SETTLING, 1877.

A second dividend of 20 per cent. to all winners for the above Meeting can be had by applying to the undersigned; this second dividend makes close on 50 per cent paid on original debt.

The defaulters for Umballa are now only four in number. Winners can obtain their names, also all Honorary Secretaries of Race Meetings, by applying to

CHARSLEY THOMAS, Captain,
Steward, Umballa Races, 1877.

Meerut, 23th Feb. 1879.

Winners will oblige the Meerut Honorary Secretary by contributing something towards the Meerut Race Stand, which is nearly finished, but H. S. is very hard up for funds.

CHARSLEY THOMAS, Captain,
Honorary Secretary, Meerut Race Committee.

A LUNATIC'S FREAKS.—Information was on Tuesday afternoon last laid at the local Thannah that a man, named John Nicholas, an employé at Apcar and Co.'s, and a resident of Blackburn's Lane, had locked himself up in his room, and had then set fire to it. The Police, on arriving at the spot, found the door locked, and a strong smell of burnt matting pervading the whole house. The closed door was burst open, and Nicholas was found quietly sitting on a chair, and quoting scripture at a tremendous rate. It was elicited that Nicholas had a grievance against a cousin of his who had dug a pit in the compound, the said grievance consisting of, as he alleged, a female skull, constantly coming out of this pit, passing through his room, and then disappearing. In other respects the man appears quite sane, but he is now under observation.

THE VEHAR LAKE.—The height of water in the Vehar Lake for the week ending Saturday 29th March was 51 feet and 2 tenths. In the corresponding week last year it was 48 feet.

THE following notice to Special and Common Jurors summoned to attend the High Court Criminal Sessions on 10th April, instant, has been issued:—The attendance of Jurors (Special and Common) will not be required until Monday, the 14 h of April, on which day at 10 a.m. they must attend at the High Court, Esplanade.

THEFT.—On Saturday last, at the Girgaon Police Court, Karra Nana, a coachman, and Bhiskoo Visram, a water-carrier, were convicted by Mr. W. Webb, the former of stealing 27 bundles of grass valued at 12 annas, the property of Dr. Bisne, and the latter of dishonestly receiving the said property, knowing the same to have been stolen. Prisoner No. 1 was sentenced to receive fifteen stripes, and prisoner No. 2 to three weeks' rigorous imprisonment.

ASSAULTING A POLICE CONSTABLE.—Nicholas Dometerie, a European, was on Saturday last fined Rs. 20. or in default to one month's rigorous imprisonment, by Mr. W. Webb, for assaulting a native police constable.

GAMBLERS.—At the Girgaon Police Court on Saturday last, Hussanu ly Dossjee, Futteyally Amrodeen, Cassum Tyabjee, and three others were charged, at the instance of Mr. Inspector Brewin, before Mr. W. Webb with being found gaming with cards and money at a common gaming house on the Parel Road. They were all adjudged guilty. Prisoners Nos. 1, 2, and 3 were fined Rs. 100 each, and the rest Rs. 10 each.

A CRIMINAL OFFENCE.—A Mahomedan, named Hubibali Esbau, was on Saturday last convicted by Mr. W. Webb of assaulting or using criminal force towards Chandbee, woman, on the night previous, with intent to outrage her modesty. He was sentenced to three months' rigorous imprisonment.

A SERIOUS innovation is contemplated by the Bombay clergy. At a meeting lately held at the Byculla parsonage—when, says an ecclesiastical contemporary, most of the clergy were present—a question across concerning "the propriety of allowing women to preach and teach in the church at public assemblies." The conclusion come to was that as a general rule women should be silent in church, or at least abstain from preaching; but "that extraordinary gifts with the sanction of the church may require an extraordinary relaxation of this rule;" as in case, no doubt, of Her Holiness Pope Joan.—*Pioneer*.

SUMMARY SUITS.—At the High Court on Saturday last, Mr. Justice Bayley disposed of two summary suits brought by Ramlaljee Mohunlaljee against Furbai Poonjey. In the first suit, in which Mr. Taylor, instructed by Mr. Bhaishanker, appeared for the plaintiff, Rs. 2,400 were claimed on two hoondies, dated 11th and 13th February last respectively, drawn by defendant's firm at Nursingpore, in the Central Provinces, in favour of the plaintiff's firm at Bombay. A decree was given for plaintiff for Rs. 2,400 with interest and costs. Mr. Mankar, instructed by the same solicitor, appeared in the second suit in which plaintiff claimed Rs. 1,200 on a similar hoondie dated 21st February last. His Lordship gave a decree for plaintiff for Rs. 1,200 with interest and costs. There was no appearance for the defendant.

HIS Grace the Archbishop of Goa is to arrive in Bombay from Goa, per steamer on Monday morning, and to leave in the evening by Mail steamer for Europe. To most persons this intelligence comes most unexpectedly, and to all it will be a subject of deep regret, seeing that this sudden departure is made under urgent medical advice. We understand that the Bishop of Angola, who has been appointed coadjutor to His Grace, may be expected out in India in the month of September, and that His Grace himself hopes to return to India in December next, quite restored in health. We have a notion that the capital of Portuguese India is likely soon to suffer in its reputation as a salubrious place of residence. His Grace the Archbishop hurries to the Western country to recover health, and the ship that conveys him homewards will shortly be followed, as the papers announce, by a Portuguese vessel of war conveying to Lisbon the mortal remains of three Governors of Goa, who were unable to escape cruel fate by leaving for Europe. It is to be hoped that His Excellency the present Governor of Goa will brave with the adverse circumstances that seem to hover around the high office in Goa.—*Catholic Examiner*.

ARRIVAL OF TROOPS.

THE Indian Government S S. Tenasserim, 1,760 tons Captain H. A. Street, arrived in harbour yesterday from Vingerla, with Major H. Keer, Captain Packdon, Lieut. Thackwell, Lieut. H. Dives, 2nd Lieut. H. D. Wolff, Surg. Grade, Surgt. Prendergast, and 247 men, 39 women, and 37 children of the 7th Fusiliers; and also 60 followers, and 2 horses.

WILSON'S CIRCUS.

A WELL filled house on Friday night last, which was the night of a complimentary benefit tendered to "Adaine," evidenced the appreciation of his aerial performances by the public. In the balancing trapeze act, in which alone the *beneficiaire* appeared, he surpassed the fame of all his former achievements on the trapeze. As he stood on tip-toe on the horizontal bar of the trapeze, taking a long swing without touching the ropes with his hands, or as he lied down on the bar with his leg stretched out as if he were in bed while his hands waved in the air, a feeling of admiration not unmixed with fear was upon all beholders. The performances by William and Powell Gregory on the double trapeze, although of a different character from those of Mr. Adaine, were no less deserving of praise. There was much to startle in the wonderful exercises in which, in a particularly perilous position in mid air, they intertwined themselves in each other's arms and legs with the trapeze in full motion. The comic equestrian double act by James and Eugene Lee, entitled "the F enchman and his wife's first lesson at the Riding Academy," kept the house amused all the time it lasted. Miss Marie Compton was *encored* for her excellent rendering of the popular national song "Nancy Lee", and had twice to reappear after having retired. The classical drawing-room entertainment and acrobating by the Brothers Gregory and others reminded one of the popular acrobatic performances given in Bombay many years ago by Professor Lee and his sons. The hurdle act, in which Master Cooke pursonated Mephistopheles, was gone through with cool recklessness and courage which have seldom been surpassed on horseback, and gave promise of a bright future which is within the reach of this young man. Not a single slip or hitch marred the execution of the part assigned to him.

THE "DUMB WAITER."

THE PRINCE OF WALES' BEAR.

A novelty in a Breakfast or corner cruet made in best Electro Silver plate, with richly Cut Glass Bottles, and Spoon complete.

At St. Petersburg, in January, 1874, during the marriage rejoicings of the Duke of Edinburgh, imperial bear hunts were one of the chief features of the festivities. A bear shot by the Prince of Wales has been mounted, by order of His Royal Highness, by Mr. Edwin Ward, the naturalist, and now stands in Marlborough House. The bear is so designed as to form a novel and useful, to say nothing of an inimitably discreet Dumb Waiter. He stands erect on his feet (like the tutular deity of Bern when offered a cabbage leaf,) and carries in his fore-paws a large tray available for wine, cigars, or dessert. Another bear has been similarly mounted by Mr. Ward for Lord Suffield. Through an oversight of his guide Lord Suffield, while hunting, came suddenly upon a snowed-up cave, in which were lying a she-bear and two cubs. The danger was imminent, as Mrs. Brain appeared infuriated at the intrusion, but by a happy shot in the breast His Lordship killed her at once. The two cubs were left to grow up for further sport, as they were considered big enough to take care of themselves, but the skin and skull of the mother were secured and forwarded to London.

Cash price with Bear Silvered or oxydised Rs. 36.

GRIFFITHS' PATENT WHITE

OR

OXY-SULPHIDE OF ZINC PAINT.

MANUFACTURED BY

GRIFFITHS, FLETCHER, & BERDOE,
SEEL STREET, LIVERPOOL,

Covers 100 per cent. more than Oxide Zinc.
Covers 25 per cent. more than White Lead.

It retains its Whiteness under all conditions.
A Red Heat will not destroy it.
Will never Blister.
Is Non-poisonous—Has no Smell.
Has no Chemical Action upon Metals.

The Patent Zinc White, or substitute for Lead, invented and patented by Mr. Thomas Griffiths, of Oxton, Liverpool, received the highest possible praise at the Meetings of "The Society of Arts and Manufactures," London, and "The Social Science Congress."

THE Manufacture of "GRIFFITHS' PATENT WHITE," formed the subject of a lecture at the Society of Arts in the Spring of 1877, and has been reported upon by the leading scientific Chemists, Paint Merchants, Decorators, &c., &c. ; was brought before the International Congress of Hygiene, at Paris, in August 1878, by Professor Lutschaunig and Dr. Phipson ; and in the same month before the British Association, in Dublin ; in October, a paper was read upon it at the Social Science Congress in Cheltenham, by Dr. Bartlett ; and it was the subject of a paper read during the session of 1878 of the Paris Academy of Science. At the Paris International Exhibition, 1878, the highest distinction which was conferred upon paints, viz. : The only Silver Medal, was awarded to it, and at the Sanitary Institute of Great Britain it obtained the Prize Medal. It has been most favourably reported on in the "Lancet," "Engineering," "Engineer," "Builder," "Architect," "Chemical News," "Sanitary Record," "Society of Arts Journal," "Scientific American," "Journal of Chemical Society," "Moniteur," "L'Exposition de Paris," "Lloyd's Official List," "New York Tribune," "New York Times," "Comptes-Rendus," of the French Academy of Science, &c., &c. Copies of any of the above reports can be had on application ; also samples for trial.

So great has been the demand for it since its introduction, that the proprietors, who were producing about 25 TONS PER WEEK in Liverpool, have been compelled to purchase Extensive Works in London, where they can manufacture about 50 TONS EXTRA PER WEEK. They have also had to secure sufficient room to increase the production to 200 tons weekly, making them the largest producers of White Pigment in Europe.

WHITE LEAD possesses only one good property, viz., "covering power," it is poisonous, soon loses its opacity, and turns yellow with Sewer and other Gases, and prejudicially affects Iron and other metals.

OXIDE ZINC has scarcely half the covering power of lead, but it is whiter and retains its colour.

GRIFFITHS' PATENT ZINC WHITE has all the *good* properties of both the above without any of their drawbacks, viz., it has far more body than Lead, has double that of Oxide Zinc, has the same whiteness, will never change colour even in sulphuretted hydrogen (which destroys lead) and does not lose its opacity by age. It is calcined at a red heat in its manufacture, hence is almost indestructible, and, of course, will stand any variation of climate. Its durability is such that it is admirably adapted for protecting Iron, Wooden or Cement Structures in any exposed situations, from the effects of the weather.

PROFESSOR PHIPSON says : "It is one of the most ingenious and useful discoveries of modern times."

GRIFFITHS' PATENT NEW ZINC WHITE is at present used by the English and other Governments as well as large private firms.

Full reports from the highest scientific authorities in the kingdom, gratis, on applying to any Agents of the "Silicate Paint Company," Liverpool. The following are a few who have reported on this new pigment :—

PROFESSOR BARFF, M.A., Lecturer on Paint and Colours to Society of Arts, Chemist to Royal Academy, &c.

JOHNSON & SONS, Assayers to Bank of England, H.M. Mint, Council of India, &c.

PROFESSOR LUTSCHAUNIG, Liverpool Assay Office.
